

**REMARKS**

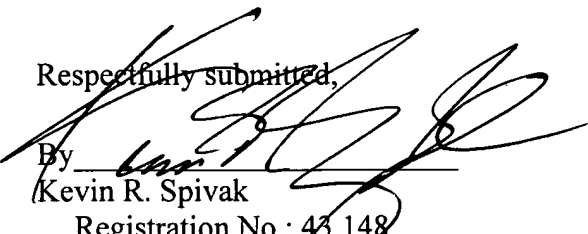

Applicant thanks the Examiner for allowing all the claims in this application. Applicant's attorney attempted to reach the Examiner by telephone today to resolve an issue regarding an amendment made to claim 1 in the Examiner's Amendment found in the March 30, 2006 Notice of Allowability, but was unable to reach Examiner Nguyen, so instead are requesting the correction by filing this amendment under 37 CFR 1.312.

Applicants respectfully request entry of this amendment under 37 CFR 1.312 to amend claim 1. Further to the Examiner's Amendment, claim 1 had been incorrectly amended at line 3 to add "a second clock signal". It appears that this limitation should read "a second input for receiving a second clock signal". It is Applicant's belief that no further search is required and no new matter has been added.

In the event the U.S. Patent and Trademark office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing Attorney Docket No. 543822005200.

Dated: June 29, 2006

Respectfully submitted,
